

## HRC60-64 Twin Screw Plastic Extruder Screw And Barrel For Plastic Pelletizing Machine

Our Product Introduction

for more products please visit us on [extrudergranulator.com](http://extrudergranulator.com)

### Basic Information

- Place of Origin: Nanjing China
- Brand Name: HLD
- Certification: CE/ISO9001
- Model Number: Customized
- Minimum Order Quantity: 1/set
- Price: Negotiable/ pcs
- Packaging Details: Bubble wrap/ Wrap film/ Wooden box
- Delivery Time: 3~7 Days
- Payment Terms: T/T
- Supply Ability: 20000~50000 set/year

### Product Specification

- Model: Customized
- Place Of Origin: Jiangsu, China
- Application Material: PET
- Key Selling Points: Long Life Time
- Applicable Industries: Manufacturing Plant
- Brand Name: HLD
- Package: Wooden Case
- Hardness: HRC60-64
- Lead Time: 25 Days
- Application: For Single/twin Screw Extruder
- Highlight: **HRC60 Extruder Screw Barrel, Extrusion Screw And Barrel, Plastic Pelletizing Machine Screw Barrel**

### Product Description

Twin Screw Plastic Extruder Screw Barrel Pelletizing System PET Plastic Granulating Extrusion Parts

**Main Charactors**

Our barrel for PET plastic pelletizing machines is engineered for excellence in processing polyethylene terephthalate (PET), ensuring superior performance and efficiency. Constructed with high-grade materials, this barrel offers exceptional durability and resistance to the harsh conditions of PET processing.

**Product Highlights:**

**Specialized Design:** Tailored specifically for PET plastic, the barrel optimizes the melting, mixing, and pelletizing processes to produce high-quality PET granules.

**Advanced Temperature Control:** Features a sophisticated internal cooling system that maintains precise temperature regulation, crucial for consistent PET processing and preventing material degradation.

**Robust Construction:** Built with high-strength materials to endure the intense pressures and temperatures associated with PET processing, extending the barrel's operational life.

**Efficient Processing:** Designed with precise internal configurations to ensure smooth material flow and efficient processing, leading to higher output and energy savings.

**Customizable Specifications:** Available in a range of sizes and designs to meet specific processing requirements and adapt to various PET formulations.

**Low Maintenance:** Incorporates self-cleaning features that facilitate easy maintenance and minimize downtime, ensuring continuous and efficient production.

This PET plastic pelletizing machine barrel is ideal for high-quality PET granule production, offering reliable and efficient performance for advanced plastic recycling and pelletizing operations.

**After-sales service:**

We provide comprehensive after-sales service, including installation guidance, technical training and long-term technical support. Each barrel undergoes rigorous quality testing before leaving the factory to ensure that it meets the highest standards of performance and durability.

**Application**

This screw is widely used in plastic pelletizing machines, including the processing of polyethylene (PE), polypropylene (PP), polyvinyl chloride (PVC) and other plastic materials. It is especially suitable for the production of various plastic granules, recycled plastic granules and engineering plastic granules.

**Purchase Instructions**

Please contact our sales team for detailed technical specifications and quotations. We provide professional technical support and customized services to meet your specific needs.

Model	L/D	Screw national standard diameter
H-20B	28~60 :1	21.7mm
H-35B	28~60 :1	35.6mm
H-50B	28~60 :1	51mm
H-65B	28~60 :1	62.4mm
H-75B	28~60 :1	71.5mm

# Product details

## FAQ

**1:How many years of experience do you have?**

Over 15 years experience in extruder industry.

**2:Are you traders or manufacturers?What is the area of the factory?**

We are manufacturer,The factory is over 5000 square meters.

**3:Screw and barrel accessories, who is produced?**

Our factory manufactures it ourselves

**4:Can I have a sample order for extruder?**

Yes, we welcome sample order to test and check quality. Mixed samples are acceptable.

**5:How to proceed an order for ?**

Firstly ,let us know your requirements or application.

Secondly ,We quote according to your requirements or our suggestions.

Thirdly ,customer confirms the samples and places deposit for formal order.

Fourthly, We arrange the production.

Finally, arrange delivery

**6: Provide technology and formula?**

For orders over a certain amount, we will provide the technology and formula to help you complete the project.

**7: Have a catalogue?**
