

Twin Screw Extruder Nickel Based Alloy Screw Barrels

Our Product Introduction

for more products please visit us on extrudergranulator.com

Basic Information

- Place of Origin: Nanjing China
- Brand Name: HLD
- Certification: CE/ISO9001
- Model Number: H-75
- Minimum Order Quantity: 1/set
- Price: Negotiable/ pcs
- Packaging Details: Bubble wrap/ Wrap film/ Wooden box
- Delivery Time: 3~7 Days
- Payment Terms: T/T
- Supply Ability: 20000~50000 set/year

Product Specification

- Model: H-75
- Place Of Origin: Jiangsu, China
- Application Material: All Materials
- Key Selling Points: Long Service Time
- Applicable Industries: Manufacturing Plant
- Brand Name: HLD
- Package: Wooden Case
- Hardness: 60-64
- Lead Time: 28 Days
- Application: For Single/twin Screw Extruder
- Highlight: alloy extruder accessories, alloy screw and barrel

Product Description

Main Charactors

Efficient and stable, widely used in industries: The twin-screw extruder barrels produced by Heng Lande are widely used in plastics, rubber, chemicals, food, new energy and other industries. Countless extruders on the market use our accessories. And efficient and stable operation, these prove our strength.

Advanced "building block" design: The main screw and barrel of the split twin-screw extruder adopt an advanced "building block" design. The screw is composed of various screw blocks installed on the mandrel and barrel lining, forming a sleeve that can be adjusted according to different screw blocks. This design allows the screw component structure to be flexibly combined according to the process requirements of the material variety to achieve material transportation, refinement, shearing, and discharge. This effectively solves the difficult-to-consider contradiction between the versatility and specificity of the screw, achieving the purpose of one machine with multiple uses.

Reduced maintenance costs: Another advantage of the "building block" design is that worn screw and barrel components can be partially replaced, preventing the entire screw or barrel from being scrapped and greatly reducing maintenance costs. This means you save time and money without having to replace the entire unit or buy an entirely new barrel.

After-sales service:

We provide comprehensive after-sales service, including installation guidance, technical training and long-term technical support. Each barrel undergoes rigorous quality testing before leaving the factory to ensure that it meets the highest standards of performance and durability.

Application

This screw is widely used in plastic pelletizing machines, including the processing of polyethylene (PE), polypropylene (PP), polyvinyl chloride (PVC) and other plastic materials. It is especially suitable for the production of various plastic granules, recycled plastic granules and engineering plastic granules.

Purchase Instructions

Please contact our sales team for detailed technical specifications and quotations. We provide professional technical support and customized services to meet your specific needs.

Model	L/D	Screw national standard diameter
H-20B	28~60 :1	21.7mm
H-35B	28~60 :1	35.6mm
H-50B	28~60 :1	51mm
H-65B	28~60 :1	62.4mm
H-75B	28~60 :1	71.5mm

Product details

FAQ

1:How many years of experience do you have?

Over 15 years experience in extruder industry.

2:Are you traders or manufacturers?What is the area of the factory?

We are manufacturer,The factory is over 5000 square meters.

3:Screw and barrel accessories, who is produced?

Our factory manufactures it ourselves

4:Can I have a sample order for extruder?

Yes, we welcome sample order to test and check quality. Mixed samples are acceptable.

5:How to proceed an order for ?

Firstly ,let us know your requirements or application.

Secondly ,We quote according to your requirements or our suggestions.

Thirdly ,customer confirms the samples and places deposit for formal order.

Fourthly, We arrange the production.

Finally, arrange delivery

6: Provide technology and formula?

For orders over a certain amount, we will provide the technology and formula to help you complete the project.

7: Have a catalogue?
