W6Mo5Cr4V2 Screw Elements and 38CrMoAlA Nitrided Twin Screw Extruder Parts Screw and Barrel for 450°C Plastic Compounding

Our Product Introduction

Basic Information

- Place of Origin: Nanjing China
- Brand Name: HLD
- Minimum Order Quantity: 1/set
- Price: face to face /set
- Packaging Details: BUbble wrap/wrap film /wooden box
- Delivery Time: 5~8work days
- Payment Terms: T/T

Product Specification

- Barrel Temperature: Up To 450°C
- Screw Material: W6Mo5Cr4V2
- Barrel Material: 38CrMoAlA Alloy Steel
- Surface Treatment: Nitriding Treatment
- Control System: PLC/Touch Screen
- Machine Material: Stainless Steel
- Highlight: **W6Mo5Cr4V2 Screw Elements Twin Screw Extruder Parts , 38CrMoAlA Nitrided Screw and Barrel, 450°C Twin Screw Extruder Parts**

Product Description

Product Overview

Our Product Introduction

for more products please visit us on extrudergranulator.com

We supply high-quality spare parts for co-rotating parallel twin screw extruders, primarily including screw elements, barrels, shafts, and other wear components. These parts are engineered for reliable performance in plastic compounding and modification applications.

Materials & Surface Treatment

Base Material	38CrMoAlA alloy steel
Heat Treatment	Nitriding treatment
Optional Coating	Surface alloy coating available for high-wear conditions, such as glass fiber reinforced modification

Key Features

- Screw elements are precisely processed to ensure excellent mixing and plasticizing performance.
- Customization supported for SHJ series and other brands of twin screw extruders.
- Every part is carefully inspected before packing to ensure stable, consistent quality.
- Short lead times and reliable after-sales service.

Packaging & Delivery

> All parts are packed in sturdy plywood cases to ensure safe transport and protection during shipping.
